

# Module 1 Field Assignment

Between this meeting and the next observe one or more foremen on your job. Your observation might include an interview with the foreman to ask them about their job. You should take notes about:

- What they do
- How well they do it
- What skills they have
- What skills they should have or should improve

If you have the opportunity to talk with a working foreman, you should ask how they balance the foremanship and craft responsibilities. Can they provide any keys to how they manage your time effectively?

You should be prepared to report your observations at the beginning of the next meeting.
